

# GET YOUR MOTOR RUNNING

# AUTOMOTIVE

## automotive

There are more than 32 million vehicles in the UK, meaning there is a constant demand for skilled mechanics to keep cars safe and on the road. An Automotive Apprenticeship offers *you* the opportunity for a lifelong vocation in a dynamic and constantly developing trade.

If *you* love cars, *you're* methodical and like knowing how things work and love problem solving then an Automotive Apprenticeship could be the right career move for *you*.

Whether *you're* interested in motorbikes, cars, or heavy vehicles, an Automotive Apprenticeship gives *you* the right foundation to progress. *You* can become a Mechanic, working for a dealership or *your* local garage working with all types of cars. *You* can progress into specialist repair, or even into management and one day own a garage *yourself*.

An Intermediate Apprenticeship will give *you* nationally recognised qualifications:

- ✓ Intermediate Level Apprenticeship in Heavy Vehicle Maintenance & Repairs
- ✓ Intermediate Level Apprenticeship in Light Vehicle Maintenance & Repairs
- ✓ Intermediate Level Apprenticeship in Vehicle Fitting

*You'll* enjoy on the job training in a role such as a Service Technician for cars, lorries or motorbikes, carrying out routine maintenance and basic repairs.

An Advanced Apprenticeship will give *you* nationally recognised qualifications:

- ✓ Advanced Level Apprenticeship in Heavy Vehicle Maintenance & Repairs
- ✓ Advanced Level Apprenticeship in Light Vehicle Maintenance & Repairs

*You'll* enjoy on the job training in a role such as a Diagnostic Technician for cars, lorries or motorbikes developing your repair skills and identifying and reporting faults.

An Higher Apprenticeship will give *you* nationally recognised qualifications:

- ✓ Higher Apprenticeship in Advanced Diagnostics & Management Principles

*You'll* enjoy on the job training in a role such as a Senior Technician or a Workshop Controller, taking responsibility for a workshop, managing other team members and dealing with the most complex automotive systems.

We'll help *you* to achieve Functional Skills in Maths, English and ICT (dependent on *your* GCSE grades) if *you* require these qualifications.

Paragon Skills are committed to inspiring you to succeed and will support you at every step of your Apprenticeship. Whether you are currently working or looking for your new job, we will find the perfect role for you.

Start your career with Paragon Skills by contacting us now.
